March Speaker – Kurt Driesner

The technical speaker this month will be Kurt Driesner, Quality Assurance Manager at Urban Chestnut. Kurt Driesner's master's work was in Environmental Toxicology at Southern Illinois University in Edwardsville, IL. His previous education and experience focused on neuroscience, psychopharmacology, and psychology, at the University of Illinois, at Urbana-Champaign. He has been working at Urban Chestnut Brewing Company since 2012, where he functions as the Quality Assurance Manager. His presentation will be about sustainability.

February Speaker

Our February event was held at Third Wheel Brewing. It featured a technical presentation by Keith Seiz, Ingredient Marketing Representative for the National Honey Board. Keith Seiz has spent the last six years traveling the country talking to brewers about honey. From the bee to the bottle, this amazing ingredient adds complexity to beer well beyond sweetness. In his presentation, Keith detailed best practices for brewing with honey on the hot and cold side, and also conducted a tasting of beers brewed with honey varietals from around the world. We would like to extend our thanks to Third Wheel Brewing for hosting as well as sponsoring and Keith for presenting.
